## Rules concerning Husbandry.

**W**hen you would plant or graft, consider (where the wind bloweth) if it be in the South, it is very good for that purpose, but if it be in the North or East, it is not good.

It is good to plant or graft generally the Moon increasing in these Signs, Taurus or Aquarius in the beginning of the Spring, or latter end of Harvest.

Plant trees for continuance, when the Moon is in Taurus, Leo, or Aquarius.

Cut timber to have it sound, in December, or January, in the wane of the Moon in Aquarius or Pisces.

Prune trees and pull off the moss in the month of January.

Slash hedges and lop trees for fuel, that the heads may the sooner grow again, when the Moon is in Aries or Libra, and in her increase.

Set young quick-sets, from September to March.

Remove young trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio: and in these months, September, November, February.

Set vines in February, March, or September, specially the Moon in Aries, Libra, Scorpio, in her increase.

Set Moss-trees in the midst of February, when the Moon increaseth.

Cut or prune trees in March or April, the Moon in Taurus, Virgo, or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full of the Moon, in the afternoon, the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung ground to prevent the growing of weeds, the Moon decreasing.

Sow Carrot-seeds about the end of February or the beginning of March, the Moon increasing.

Sow Onions and Leeks in February or March, at the wane of the Moon.

Set Cucumbers and Melon seeds, not above one inch in depth, from the first of April to the 20 in the increase of the Moon.

Excellent Notes of Husbandry and Gardening, for every Month in the Year.

**I**n January cut down Timber (and it shall not chink nor be eaten with worms) in the last quarter of the Moon set or sowe Kernels, and Berries of Bay-trees, Privet, and Box. Set Dutch-lets, Rose-trees, Peaches, Almonds and Plum-trees; and remove trees if the frost be not too hard, prune and lop them before full Moon: sowe or set Beans and Pease, and dung land in the last quarter: geld Cattel to rear, fallow land for Wheat and Rye: trench Gardens with dung, and remove Bees, and for your own health, keep your body warm, let good and wholesome diet be your Physician, moderate exercise and labour your sauce to cause appetite.

February.

**N**ow sowe all sorts of Pease and Beans, and other Pulse, sow Wallard-seed, cast up ditches, set and plant Vines, Hops, Gooseberries, and any fruit that grows upon bushes, prune and trim all sorts of fruit-trees from mols, canker, and all superfluous branches. Graze in the latter end of the month, sowe Dupons in cold stiff land: Take heed of cold, forbear Segmatick meats.

March.

**I**n the new of the Moon (the wind any but West or South) graft Pear, Charden, or Apple-trees, make an end of sowing all manner of Pulse, and begin to sowe Oats, Barley, Parseneps, Dupons, Carrots,

Carrets, Cucumbers, Melons, and all kind of Pot-herbs, slip Bettichokes and Sage, geld Lambs, let blood according to strength and necessity, the Sun and Weather also being fit (but take advice of the learned Physician) look what diseases cannot be cured in the Spring time by physick, will hardly be cured all the year after.

April.

**S**ow Barley, Hemp, and Flax, sow Hops, for and sow all kinde of Garden herbs, open them, and let Bees labour for their living, let Farmers now provide them for Hay, and all good Housewives look to their Dairies; bleed and purge with abste; those that are troubled with aches, or the gout, let them go to the Bath in this or either of the months.

May.

**S**ow Barley on all light lands and bearing grounds and likewise Hemp and Flax, and all manner of fine seeds and herbs, take Lambs from their Dams, stir land for Wheat and Rye, leave topping of Trees, teach Hops to climb, but cut off the superfluous branches, Rise early, wash the fields, especially by running streams, Sage and Sweet Butter is now an excellent breakfast, Sage and clarified butter, as also Scurvy-grass, Hie, and Clozmitans, Beer are whole- some drinks to be drunk fasting.

June.

**S**ow Barley, bring home fuel, mow Corn and Grass, let Holesmarty, Carnations, and Sillydowers, sow Lettuce and Menth-leaf three or four days after the full, for then they will not run to seed, make hay, carry Sand, Lime, Marl, and Manure, of what kind soever besetting your land, cut neither hedge nor Tree in this and the two next months, beware of great chills, use thin and light Diet, moderate exercise, and chaste thoughts.

July.

July.

**A**pply making and getting in of hay, pull Hemp that is ripe, gather Garden Beans, get Hens, and Wormwood, and Saul to strein on your Swags, to destroy Moths and Fleas, fence your Copses, use moderate diet, take heed of great thirst, for nothing bringeth the Pestilence, or pestilent diseases sooner, then extreame thirst, and feruent heats, and cold taken also suddenly upon them: Take no physick, bleed not but upon all violent occasions.

Labour in Summer, take pains with the Ant,

Else in the Winter live poor, and in want.

August.

**F**ill close your Corn-barrell, some Winter herbs in the nets of the Moon, gather Garden-seeds, make Savie and Butts, gather Summer fruits, refrain from sleeping in the day time after meat, avoid riot and excess.

September.

**I**n the beginning of this month, and end of the former, gather Hops when they may be broken, the weather being fair, and no dew on the ground, kill Bees, make Merjuice, some Wheat and Rye, remove and set all slips of flowers between the two Lady-days, put Swine to Mast, remove Trees every new Moon, from September until February, especially in the nets of the Moon, the weather fair and warm, the wind South or West: use physick moderately, for bear fruits are pleasant, or rotten, shun riot, and excess of diet.

October.

**S**ow wheat and Rye, the sooner the better, for fear of rain, set Bees and Butts, gather Winter fruit, the weather dry, in the afternoon, and in the wane of the

the Moon. Cut Hote-trees, if you desire to have Ro e  
of Moles. do this once in two years, refuse not any  
needful physick at the hands of the learned, and use all  
moderate sports to revive the vital spirits to the ser-  
vice of God only.

### November.

**M** The Month, kill Dogs, trench Gardens with  
dung, set Crab-tree stocks, sow Wheat and  
Pea in exceeding hot sandy grounds, cut down  
Timber for Ploughs, Carts, and other implements  
for husbandry, use wholesome meat and drink, with  
good exercise to preserve health.

### December.

**I** this and the next month, cut down Timber in  
the last quarter of the Moon, uncover the roots of  
fruit-trees, set Beans and Pease, cover all your bed  
flowers and herbs from frosts and Worms, with old  
rotten horse-dung, lay well to your cattle, water and  
keep moist your meadows, let hedges blow, and to con-  
clude, drink good wine and strong drink, keep thy ho-  
use warm and dry, banish all  
cares from thy heart, and feast thy good neighbours,  
rejoycing that God sent his only begotten Son about  
this time into the world, to save all such as lay  
hold on him with a true and lively faith.

**P**Resent help for Men, Women, or Children, by a Traveller famous in Germany and other Countries for his practice this five and twenty Years; and maketh all sorts of Trusses easie, none such made in England; as these be found by experience. He helps those at a distance, as well with directions, as those in London, and helps those that cannot hold their Water, or bearing down in their Privy Parts, and maketh strait Stockings. The Poor have advice for nothing. Take it in time. By R. Collins. From Nine to Twelve at the Bell and Naked Boy on the Ditch side at Fleet-Bridge. The Afternoon at the Bill in S.
